Total Sales Tax	7.600%		\$ 7.60

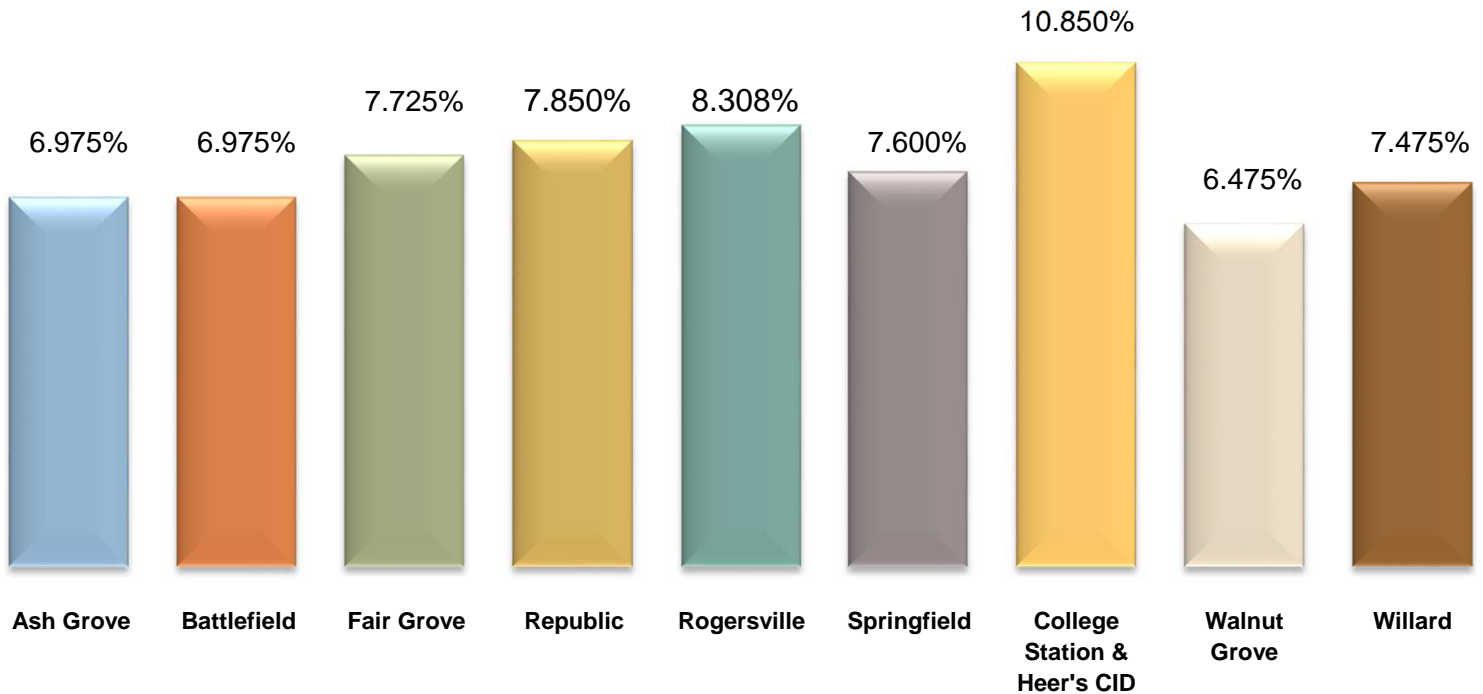

Everyone knows how sales tax is collected. You see it at the cash register every time you purchase groceries or an item at your favorite store. For example, every \$100 spent generates \$1.25 for Greene County. Of that amount, .53¢ is allocated to other municipalities and the remaining .72¢ is used for all County operations.

* Note: There may be special districts such as a Community Improvement District (CID) or Tax Increment Financing (TIF) that would affect the rates.
